NEWS:

Welcome back to a brand new year, it's so fresh and all kinds of possibilities to come truth - just waiting around the corner. SRSnews will continue this year aswell, helping most of you and being annoying to some (they arn't many, about 5 or 6). 2001 was great in most ways. Some debate about the loglists on the internet. I was happy to see that most of the operators doesn't bother (those who does included in the 5 or 6 above). About the same amount of raids as the year before, so we can expect a few raids this year too. But most of all, I hope that you write to your fellow pirates when you hear them, snail- or e-mail. They are there for you, (well some ego's are out there - but what the heck) so just don't ignore them. Wishing you all a great and woundful year 2002! *// Jonny @ SRS*

RADIO RTN will have some more shows via the IRRS Relay Service within the next coming weekends! Check the 7120/3985 kHz outlets for their shows! Keep listening to 30 years (!!!) of RTN and look out for their competition too! Great prices to win! SRS Ytterby for mail to RTN!

Radio Pandora now has a x-tal for 7386 kHz and hope to try it this Sunday.!

NEWS:

From now on (January 2002) Radio Crystal has a new snail mail address. You can delete the Dortmund adres in your files ! The new address would be: SRS Germany, Radio Crystal, Post-Box 1136, 06201 Merseburg, Germany
The website and e-mail address is still the same: <http://listen.to/crystalradio> and crystalradio@hotmail.com

Radio Borderhunter has changed address to SRS-Ytterby.

MAGIC-AM has a new e-mail: Magic.am@wanadoo.nl
The old one (magic@broadcast.demon.nl) will close 1-Feb.-2002.

I think the unid in SRS Nr 1- 2002 News can be cleared.

December 30th, 2001 (Sunday)

6402.5 unid 08.12 000020 E, mx rock and disco

I was active at that time. In most reception reports the freq. 6402.3 was noted, but perhaps a little tolerance in the RX equipment. I have measured a freq. between 6402.2 and 6402.3kc during the transmission on 30 Dec.2001. I know you don't give the e-mail address of listeners who send logs to SRS, but perhaps you can send this message to the this listener. I'm wondering who was logging Crystal Radio in the C region of the SGENCI country's.

Best 73's Crystal Radio (<http://listen.to/crystalradio>)

NEWS:

The editor has been listening again to the Sunday morning noise on the short wave. At the moment, I am using a MFJ 1022 active antenna and managed to hear Dr Tim with his 11 W, NMR with his 10 W and the unid on 7475 kHz - who? What is so difficult with an id? Just say that this is a test without name if you want to be anonymus, do not think that there is anything more annoying than been listening for a long time and then - silence...
Keep up the spirit, more id's this week and hopefully less unids.

Good DX and best 73's // Jonny @ SRS

Power 41 had their very first test transmission and announced a power of 100W. The audio was too treble and there were still some problems with the tx to solve. Next transmission would take place (next Sunday?) on 7525 kHz.

Northern Music Radio made it again with a fair signal received on the island Gotland, in southern and west Sweden. The transmission featured a relay of American pirate Rock It Radio and a repeat of the Christmas programme. The station runs only 10 W. Address via Ytterby.

Again, the brainstorm is on the move. Time for a new edition of Pirate Reflections - if we get some articles!

NEWS:

Teststation No. 1 announced an E-Mail-address of teststation1@hotmail.com

Radio Pandora was heard in the US by Dave while relaying WRCR. At the moment it seems like you do not need any high power Tx to be heard in the states. Congratulations!

NEWS:

from Spain : Poor signals as usual from Germany : quiet Sunday

from the USA : Conditions were rather poor this morning. It started going downhill earlier today too, after 0900 UTC. There also didn't seem to be a lot of activity on 48 meters. However 41 meters had several stations on at the same time.

RAID in Germany Radio MONO from Germany was raided this Saturday afternoon at around 14.15 UTC by the german PTT and police. Nothing from the equipment or transmitters are away. The webpage at <http://www.Radio-Mono.de.vu> is closed.

After beeing jammed or blocked on 7480 kHz for weeks Radio BENELUX and CRAZY WAVE Radio change to 5820 kHz from now. Sorry for the inconvenience and we invite all our listeners to tune to 5 Mhz from now. We also like to invite all the Free Radio stations to continue jamming on this channel. <http://www.mannelli.com/cwr>

HOT Radio wants to be 'op de Internet' in early February.

Laser Radio announces plans for a regular broadcast via a 100 Kw shortwave transmitter in Europe. The station hopes to launch its regular broadcasts in the early Spring. Check out the web site at : <http://www.laserradio.net> The station is seeking presenters who can pre-record one hour shows and send them to the station address for future broadcast. Mailing address is : Laser Radio, BCM Aquarius, London WC1N 3XX, England. Station format will be music from 70's , 80's and 90's.

NEWS:

Just to let you know that Radio Ozone International will be on the air this coming Sunday 17th February from 07.00 until 11.30 UTC on 7.435 and also on Sunday evening we will be testing on 6275 from 17.30 until 19.00 UTC. We also now have a new e-mail address as follows: Ozone3radio@hotmail.com.

LHH has moved / changed relay? / to 6219 kHz and seem to have improved reception through Europe because of less QRM.

<ADD>

Uniden CERT 40 channel CB units model numbers PC400 and PC404 plus PRO420 brand new, never been opened boxes £35 and £45 each or payment in equivalent Euros. 27/81 40 channel base station made by Murphy £50 or equivalent in Euros. CERT and 27/81 Realistic Navaho 80 channel £95 or equivalent in Euros. A number of 40 channel handhelds on 27/81 UK system with batteries and charger £25 or equivalent in Euros. Pictorial details sent on request with return postage to Gary Stevans 85 Hillside Road West, Suffolk, NR35 1RH, England or e-mail bbms4ozone@compuserve.com.

NEWS:

Scandinavia 75 has been heard for the time in the 76m-band and they announced antenna@europe.com as contact address.

WAIR, All Indy (India ?) Radio, has been heard via a relay and announced the P.O. Box 69 in NE 68022 Elkorn, USA during its program.

Zender FOXFIRE announced Box 128 in Beilen and we can assume Radio BLACK POWER uses this Box, too.

Last week's log: 6270.7 Rock-It Radio via ALI 07.30-08.35* (Yoder,PA, Valko)

We got this reflection: I know for a fact the Alfa Lima/Dutch Relay Service did not transmit this. Alfred was not active this weekend. This very likely is from the USA.

Pandora will test on 9 MHz! Check out from 9300 khz, up ward,s on a Sunday morning. 20 watt's power.

Hello all at srs, more bad news im afraid. SRE was raided again at approx 1250gmt by DTI agents. The MW and the SW txs were both taken along with tape decks etc. This weekend was the first time we had come back on since our last raid by the DTI. It would appear that we are being victimised by the DTI with the help of the now defunked radio XXXX XXXXXX staff. There is other MW pirate radio activity in the London area but they are safe from being raided it would appear. We will be back asap! (XXXX by the SRS editor)

Hot Radio is now reachable via email at HotRadio48@hotmail.com
Radio Victoria is reachable at FreeRadioVictoria@hotmail.com

Some Off Shore? On <http://home.swipnet.se/offshoreradio> you'll find links to pages with former Swedish offshore stations Radio Syd & Radio Nord

NEWS:

In last weeks SRSnews, I tried to write down a piece of news directly from my poor head, what a mistake, hi. I wrote that Power 48 had joined the SRS Ytterby maildrop, the name of the station is of course Power 41. The hotline to Power 41 is: +049/177/6302557, eMail address :power41@aol.com

SKY LINE RADIO (HOL), DE SALLANDSE BOER and ZENDER NOORDERLICHT can all three be reached via Postbus 139, 7890 AC Klazienaveen, Netherlands

The name of the station on 6288 (24th of February 2002) was Radio Mazda.

Sonnet Radio can now be contacted via SRS Ytterby.

UK Radio live from the UK every Sunday on 6266kHz and also on the net via Live 365 every Sunday from 2000 GMT. Web: <http://members.tripod.com/ukhothits>

The veteran Irish short wave pirate Radio Valleri will return to the air on Sunday March 17th 2002 (St Patricks day) for a special one off broadcast. To give North American listeners a chance to hear the station, it will sign on Saturday night around 2100 and continue right through until Sunday night. Frequency will be 6310 khz and the power will be in the region of 50 watts. Original presenters Derek Jones and Mike Anderson will present a programme full of nostalgia to celebrate 30 years since Radio Valleri first broadcast. A mailing address will be announced during the programme for reception reports.

Fantastic E-mail QSL-card from R FOX 48 received after 1 day! (Me too !)

The Pirate Radio Address List 'Piraten.WdB', issued by SRS Germany, is now on a new server at <http://www.schoechi.de>

NEWS:

After lots of struggles with Yahoo/Geocities we finally have our own domain and it here to stay. So our webpage has moved to <http://www.alfalima.net> Have added some new futures like a for sale page with al kinds of equipment for sale, radiomarkets page were and when there is a radio marked in west Europe and other new stuff. Anyway, change your bookmarks and links.

WAIR gave the following address: P.O.Box 69, Elkhorn, NE 68022, USA

We're an underground record label based in Newcastle, UK. We currently have a CD out, showcasing some of the acts on the label. The music ranges from guitar-indie to techno and electronica. We're interested in getting some airplay. If there are any pirates out there interested in playing our stuff, please contact distractionrecords@hotmail.com, and we'll send a free copy of the CD. All we ask in return, is that you let us know the tracks played and when.

From Radio Pandora I got a question if there are any USA stations that want to be relayed. Perhaps for April Fool's day? Address via SRS Ytterby

Power AM has the e-mail of: poweram@netmail.com

Paradise Radio has: paradiseinternational@hotmail.com

From 00:00 Sunday morning we relayed Seldom Heard Radio from USA on 6245 kHz. Until 04:30 and again at 0900 - 1010 UTC. The address is Seldom Heard Radio, PO Box 69, Elcorn.Nebraska, 68022 USA. Please send \$2 for qsl. //Joe Vincent. JRRI

Several repeats of Radio FANTASY and Radui RTN via IRRS. Note the new 'slot' at Sat, 23:00 ! Another relay of WAIR in the 48m-band. New 'main-frequency' for CWR : 7450 kHz. This one gave excellent reception Sunday morning !

.....
This is a list of the best times and frequencies currently for peak propagation to the eastern half of North America from West Europe. This information is based on actual reception observations made by me in TN, USA. Keep in mind this is for the month of March, and at this time of year with rapidly lengthening daylight, times and frequencies change month to month. Also note that this assumes that the MUFs and LUFs will remain relatively stable as they have since January.

11 meters. Currently 11 meters continues to be excellent, as it is right under the daytime MUF between our two continents. 11 meters is now providing the best daytime propagation to America. To give you one example I can at times copy the 'Comité Departemental du tourisme de la Charente-Maritime, (tourist information radio) on 25926 NBFM with only 1 watt. If you are interested in using this band the best time to North America is 1700-2100, with 1700-1830 being the peak.

13 meters. Currently 13 meters is not as good 11 meters. I do not recommend this band, because it falls several Mhz lower then the daytime MUF. If you wish to use this band I suggest 1900-2100, when Europe has just gone into night and America is still in day. During that time the MUF has fallen to around 21 Mhz.

16 meters: No pirate that I know of uses this band, but why not? It propagates well to N AM from 2000-2300.

19 meters: The best over all long haul DX band. You can not use it to N AM during the middle of the day. But it will work very well from 0700-0900 and again 2100-0300. As we go into June-Aug, you may use it with very good results from 2300-0800.

25 meters: Currently only good to N America from 0600-0800.

48 meters: I do not recommend this band at this time of year through October for transmissions to N America from Europe, due to the high static levels and lengthening daylight; however, if you can only use this band, it will propagate (now) between 0000-0700, with peak between 0500-0700.

73, David

NEWS:

In last weeks news, the e-mail to Power AM was wrong, correct should be poweram@netmail.nl. So .nl and not .com

Big surprise this weekend: This Scandinavian free radio project R. MATILDA returned to the airwaves after 10 years of silence! The revival took place on 7450 kHz (saturday) and 7300 and 6965 kHz on sunday. SRS Ytterby maildrop was announced. Correct reports will be verified for 2 Euro/2 USD.

Another bang: Irish based RADIO VALLERI INTERNATIONAL made it to the air after decades of silence as well. It was said to 30 years ago since they started transmissions. Any idea about the correspondance address, please help!

US based WHYP (Providence -snailmail - or whyp@partlycloudy.com) made it to Germany this weekend with AM modulation! Power has been 175 watts! So the band is open for more, please try to reach the other sides of the pond!

Last weekend the OP spelled his station name being RADIO MAZDAL (with L!) Who is right - the listeners or the OP?!
(Who wants a station called after a Mazda? And what's a Mazdal? A working Mazda?/ ed.)

Do you like the original Rock and Roll sound from the era that gave birth to Rock and Roll -- The 1950s? Then come check us out -- We are Rock-it Radio and have been microcasting since 1995 and have been online since 1997. With the 50s Rock and Roll Sound. We can be found at: <http://www.rockitradio.net>

Also, any station interested in Rock-it Radio Programming for Relay etc. please contact us and we will glad send you a promo recording of our programming. We also have a page dedicated to Free Radio and Webcasting Stations World Wide at: <http://www.palmsradio.com/radiolinks.html>

Hi, My name is Teresa and I collect radio station bumper stickers and I would love to have one of yours to add to my collection. I live by Austin Texas in a town called Leander. My address is:

Teresa Harris, 3611 CR 272, Leander, Texas 78641.

If you need a pre-stamped envelope let me know. Thank You very much for your time. Sincerely // Teresa (pcrayon@texas.net)

NEWS:

Thanks for all the information regarding R. Valleri, here some of the good stuff:

The station can be contacted with said reception reports or for information in general at radiovalleri@yahoo.com or at 52 Grange Road, Baldoyle, Dublin 13, Republic of Ireland.

If those interested want to make contact with the Radio Valleri team I suggest that they write to us at Radio Ozone International and Mr Ozone can pass the letters on to them as he knows the station operators. I think you have to bear in mind that after all this time there may be some QSL cards still remaining you just never know.

EMR plans to be on over the Easter period (late Saturday through to Sunday) on either 9290 or 9315 in the 31 metre band. Please try to listen out.

Regards & 73s to everyone. // The staff of EMR

On Easter Monday, DJ Abril Ensiksi will appear via AL International and have a lottery were you can phone into a special phonenumber an win a super prize!!

UK R. Int. has left the 48m-band and is now every Saturday evening in the 76m-band from around 21.00 UTC to 0.30 UTC (Sun). Frequency is 3920 kHz.

Seldom Heard Radio. Post Box 69, ELKHORN, NEBRASKA, 68022 U.S.A.

And finally I want to wish you all and everyone a Happy Easter!

11440.0U khz RADIO COCHIGUAZ, 0101-0114 salutations in Spanish by Eastern to listener's & local time "son pasaditas las 9 de la noche", then andean music & ID's in E, D & Que. SIO: 353.

NEWS:

Not much to report. Due to lack of time (never let a woman wait, hi) I had to shorten the ded-line this week. Updaters and April 1st next week. Anyone who heard DJ Abril Ensiksi?

Some information about Radio Favoriet: Active around 7500 kHz. Has only limited access to internet.

Is it Amamelis or Hamamelis?

NEWS:

So, back to (almost) normal routines. Long list this time, and please have SRSnews 14 by your side to double-check for unid's on the updater-section. There might be some double information, but as a FR-DX-er I'm sure you are used to it, hi.
Good DX on the bands! // the Editor

Regarding the report on the **Radio Valleri** return to the air a few weeks ago. Under NO circumstances should any mail be sent to any English address, or any other address for that matter. The address for Radio Valleri was announced on the air as follows, and was published for listeners to contact us directly.
Address: 52 Grange Road, Baldoyle, Dublin 13, Republic of Ireland.
e mail: radiovalleri@yahoo.com // **Radio Valleri engineering dept.**

RADIO MI AMIGO gave RadioMiAmigo@hotmail.com for E-mails.
Postal address: Postbus 5, 8100 AA Raalte, Netherlands

RADIO CITY gave an E-mail address for reports, but it seems like e-mail are bounced back. (Stationofthecar@yahoo.de)

Radio Caroline on 7526 at Easter, was in fact a broadcast from **WMR**. The reason for the Caroline recordings was simply the fact that there were a few technical problems with the studio, and they were not solved in time for the recording to be made, even though it was thought they would have been. The plan was to have a couple of hours only of the last analogue satellite transmission from Caroline, and then WMR would be on the air. The problems however were solved the next day, and WMR should be back on SW next weekend. - **Jack at WMR**

NEWS:

RADIO RASANT is a project by a secondary school in Sundern, Western Germany.

Reception reports can be sent to: Radio Rasant, c/o Realschule Sundern, Rotbuschweg 28, 59846 Sundern, Germany.
2 IRC or equivalent should be enclosed for return postage.

Also new o the band was RADIO LITTLE SEAHORSE. This station can be contacted via the SRS-Germany, Postfach 11 36, 06201 Merseburg, Germany.

The unid on 6286,7 kHz last sunday (14.04.) morning must have been Radio SEEPFERDCHEN (sea-horse).

Correct e-mail for Radio City should read: cityofthecars@yahoo.ca

We hope to be starting VERY soon a relay service for the whole of Europe on the shortwaves. For rates and times available, please contact: Freecom100@aol.com

Radio Pandora will now use 9 meg,s and 41 meter,s, every 2nd and 4th Sunday. So the next broadcast will take place on 28 april, on 7395khz. Then after that 9315 khz, will be used on 12 may, and so on.!!!!

Radio Nachtigal on 7530 ?

SRS 1997-21 reports about a Radio Nightingale on SW, no address was given. And in the past there were different Nachtigal's on MW, too ..

Weekend Music Radio was on the air over this past weekend, 13th and 14th April, on the frequency of 7525kHz. This is the real WMR, and the only frequency in use at the present time. There were logs last week and this week of a station on 6300kHz, with old off air recordings of WMR. This is a hoax station, and absolutely nothing to do with WMR. It is unknown the reason behind this hoax station, which broadcasts weeknights, as well as some weekends. The station remains on the air for hours at a time, suggesting a mains site. The original signal must have been rather good to have quality off air recordings like the ones used.

WMR address remains at 14 Stone Row, Coleraine, Northern Ireland BT52 1EP

E MAIL ADDRESS wmrsw@37.com, although this may be changed sometime to try and avoid the masses of junk mail received at that address. //Jack WMR

=====

NEWS:

The earth have been suffering from great magnetic storms for the last week. This has been seen as aurora and also in figures by high K-values. Up to 7! Normal values are between 2-3. That is why the conditions has been pretty poor on some frequencies this weekend.

Just a quick note to let you know that Swinging Radio England on 6275 kcs which had been on since thursday pm was TAKEN OFF THE AIR AGAIN on Sunday at approx 1645bst. It is not known at this stage if the raid was official or performed by a private anti-free radio terrorist group who have attacked us before.

There was a change of frequency before the tx was switched off, we have no explanation for this at the moment as the tx was crystal controlled. The raid was expected and provoked by us to establish how much interest there was in our operations hence the use of old programmes of a provocative nature.

More news as it comes. best wishes to all Tony Randall SRE

Radio Pandora relayed Radio Geronimo last Sunday on 9315 khz, 14/4-02. 2 relay,s were relayed. First at 10 00 pm till 10 45. . Then Radio Pandora from 10.45 till 12.15. A second relay was broadcast of Radio Geronimo at 12.15 till 13.00pm. Then Radio Pandora carried on till 13.45, when we closed down.

Palermo gave the e-mail Sjappie@wanadoo.nl

Log from the USA and PA in particular:

15069.74 Alfa Lima Int., 2155-2230, Rock and Pop mx. Alfred w/mention of USA, South America, "good afternoon", and ending w/ID, then back to mx. 2228 another anmnt w/ID, phone number, Web site, etc. Quick fady signal, sometimes quite good, other times inaudible. (Valko 27 April)

Received some nice QSLs recently from Star Club R., Bandonica R., and R. Torenvall. Thanks guys!! I really appreciate it!!! (Valko)

NEWS:

Not much news this week, May 1st coming up, maybe increased activity.

R. Blackbeard is now txing regular on 1611 kHz MW Fri and Saturday nights from around 9pm using 100 watts and a longwire antenna. Also regular tx,s on the boring internet at www.live365.com/stations/75388 **IN STEREO!**

We have been told that Radio Scandinavia will be active tomorrow Tuesday evening around 3910-3920 kHz. Check <http://www.scandinavia75.tk/> for details.

NEWS:

Weekend Music Radio have been using the frequency of 7526kHz for a few months. However this past weekend, a transmission had to be halted as the apparant HOAX station playing a recording made a few weeks ago of WMR was operating on 7524.9 kHz. This was noted on the air at the normal WMR s/on time, saturday evening, as well as Sunday morning!! This is the first time that the HOAX operation has been on the air at normal operating hours, and thus it was not possible to air the real WMR this weekend. The reason for the HOAX broadcasts are unknown, but judging by the reception of the off air recordings, the real WMR has had some good signals!!

Power AM now officially uses the P.O.Box 1136 in Merseburg. "Next months no activity, we are reconstructing - new very high tower and antenna."

Radio Fox 48 has joined the SRS-Ytterby maildrop.

Whilst WR International are on the air, their output is also simulcast on the internet for a trial period at <http://62.31.196.156:8010/>

This is also on for a trial period 24 hours a day from 4th May 2002 until 12th May 2002. If it is used to some extent then we may make it a more permanent feature, especially whilst we are on shortwave.

===== **The BeNeLux Short-wave DX meeting** **Wow!! Time surely fly's when you have fun.**

Greetings all my dear friends in Free radio Short Wave land.

Time has come to announce briefly about the upcoming meeting here in the Belgium/Netherlands border area witch lays between Breda (NL) and Turnhout (B). As the meeting of last year was a huge success, so is the reason to organize an other one. We will have just as last year a Barbeque, Drinks, Fun and laughter and we hope you will come as well.

Reason for this early announcement is just for those that would like to know it on time so they can adjust work or holydays to it. Also necessarily for us is to know how many will come at the meeting so that we know how much meet we must order an drinks. The meeting will be taking place on Saturday the 24th of august. and starts up at 1500 hours local time.

You can stay the night over in a huge tent (take a sleeping bag with you) or at a local hotel.

The place where it all will be happening will be announce a few weeks/days before the meeting to those that want to come.

You can get more info on :

Email: summermeeting@hotmail.com

Telephone: 00 31 (0)6-10531057

Mail drop: Borderhunter Ostra Porten 29 44254 Ytterby Sweden

Can say that we hope lots of Short-wave listeners and pirate station operators will come.

Can say that last year it was big fun.

Can say that that we hope lots of you will come.

Greetings from the The BeNeLux Short-wave DX meeting organization

Added info for those that have a long travel to get here

For those that have to travel really far. For example the guys last year from Finland and others outside Europe we are also working on the option to stay here for free (for example a week) and visit Holland, Belgium or Germany. So that these guys make this their holydays. Also there is a close by hotel. For those that want to make use of this have to book the Hotel on time.

The BeNeLux Shortwave DX meeting, more on <http://www.alfalima.net/baarle.htm>

=====

NEWS:

We have cleaned up our link-site from all Error 404's and non-valid links, please see if Your link was removed by mistake.

We are looking for a recording of: THE HISTORY OF OFF-SHORE RADIO Narrated by: Phil Harris ?
SOUNDWAVE FM, P.O Box 3103, Onekawa, Napier, New Zealand

The homepage of Radio Pacman can be found on <http://www.cyberknol.tmfweb.nl/pacman> . Lot of nice pictures and more.

New Spanish radio pirate. Radio Naranja, a new Spanish pirate station, plans to start broadcasting on 26 May 2002. The station intends to transmit every Sunday between 0800 and 0830 on shortwave 25625 kHz. Format is news, music and brief items "dedicated to the DX world". Reception reports, which will be verified with QSL cards, can be emailed to radionaranja@hotmail.com.

During the transmission on Sunday 12th, 2002, Radio Benelux was raided at 08.56 UTC. The station was on 7450 kHz. No more information for now.

-----000-----

THE MV MI AMIGO !

France Radio Club and Offshore Echo's annual event takes a look at the famous radio ship Mi Amigo, the radio stations and people that were involved with her Euroradio 2002 takes place in Calais, France on Saturday 6th July 2002, at the Terminal meeting room (top floor of car ferry building).

Starting at 2.00pm local time, Euroradio 2002 features a selection of offshore radio videos playing during the afternoon. We'll also be talking to our special guests. The Offshore Echo's Boutique will be open during the event and feature a wide range of offshore radio related merchandise. In the evening there is a special Euroradio dinner, including wine, in the private dining room of the Terminal restaurant.

Guests include:

STEVE ENGLAND

Steve has produced radio jingles and station image packages, for a number of years, and is the UK agent for Jam Creative Productions, and classics PAMS jingles. His radio career, and experience with jingles, date back to Radio Atlantis and Caroline in the 1970's. Steve England is now the operations manager of new company S2Blue, as well as producing jingles under his own name.

HOWARD ROSE

Howard's radio involvement goes back to the days when he was known as Crispian St John on Radio Northsea and Radio Caroline in the 70's. He revived the name again with Gold oldies station Radio Sovereign in the 80's, and was Jay Jackson on 80's Caroline. Howard Rose now runs the industry weekly The Radio Magazine.

FRED BOLLAND

Fred was involved with the ill-fated Radio Delmare in the late Seventies and later organised Radio Caroline Dutch programming from the Mi Amigo. He continued to be involved with offshore radio during the 1980's.

OTHER GUESTS

More guests to be announced, watch for more details

Euroradio 2002 costs £26 including dinner, or just £6 for the afternoon (without dinner).

For bookings, and further information contact:

Web	www.offshoreechos.com/euroradio2002
E-mail	Euroradio2002@offshoreechos.com
Post	Offshore Echo's, PO Box 1514, London W7 2LL, England

Full details of travel, hotels and Calais maps will be sent with bookings.
We can also arrange hotel rooms in Calais.

NEWS:

Poor conditions around Europe this weekend. Let's hope and pray for some better one's...

Radio 510 International

Just to let you know that our new schedule is as follows. All times are in UTC.

Friday 19.30 - 21.30 UTC on 3985 kHz
 Friday 22.00 - 23.00 UTC on 3985 kHz * beamed to the USA
 Saturday 07.30 - 09.30 UTC on 7120 kHz
 Saturday 12.00 - 14.00 UTC on 7120 kHz
 Saturday 17.30 - 19.30 UTC on 3985 kHz
 Saturday 22.00 - 23.00 UTC on 3985 kHz * beamed to the USA
 Sunday 12.00 - 14.00 UTC on 7120 kHz
 Sunday 19.00 - 21.00 UTC on 3985 kHz * brand new!!

Attention all stations!

If you're interested in getting your show played all over Europe on 10KW Siemens transmitter for \$30 (we'll throw in FREE repeats as well!) please get back to me. All shows are 58 minutes long and can be sent on CD or tape. Email me at stevie@radio510.org for more information.

Schedule News

In the next coming weeks you'll be able to hear the following stations:

Radio Casablanca * Germany; KIPM * USA; International Music Radio * Switzerland; Lost Discs Radio Show * USA; Radio 510 International * Switzerland; Radio Sparks * Switzerland; Radio Waves International * France; Seldom Heard Radio * USA

R.510 Int'l News

Make sure to check out our website at <http://www.radio510.org>. In the next few weeks Radio Sparks will have its very own website. More information will follow later. Radio 510 International can be heard in the next coming months via WBCQ in the USA as well as "other" stations around the globe. More information will follow via my website. I'll be at the next Merchweiler DX Meeting meeting this August in Germany for three days. Click here for more information <http://www.swlcs.de> or go to my website which has a full page on the event. Next year I'll be making another trip to the BEST AND COOLEST radio meeting in the whole world. That's the Winterfest 2002 in PA, USA. More info can be had at my website or click here <http://www.swlfest.com>. Looking forward to meeting you all there. You'll find all links at our website. Make it a date! Before I finish, I'd like to thank all clubs out there who have supported Radio 510 International over the last 8 years. It's your input which is my output :)

Best wishes /Stevie/ Station Manager

Mailing Address for QSL, info sheets and stickers:

Radio 510 International, Postbox 510, 4010 Basel, Switzerland.

Please include 1 IRC or 1\$ for return postage.

=====

NEWS:

Not much at all to edit this week! Seems like Football-WC comes before pirate-DX-ing.

Starshine Radio was back on air this weekend, via AL Int. Kim was not singing that much this time, seems like he is getting older. The program was a trip thru Denmark, with a short stop in Switzerland or Sweden, all presented together with oldies. An e-mailaddress was announced as starshine@emailaccount.com and snail-mail via Ytterby, Sweden.

Laser Hot Hits seems to have found a new transmitter or x-tal again.

To whom it may concern and our loyal listeners world wide.

It is with great sadness that I have to announce the closure of Swinging Radio England. This is due to the unprecedented attacks that we have received from RFL staff, the DTI with the co-operation of informers and so called supporters of RFL and free radio. They have succeeded in their selfish plan to kill us off, but they have also upset all the listeners who have been so loyal to us during our struggle for survival. I would therefore like to thank all of our loyal friend and supporters for their help in the past and wish them well, and to those who are responsible for killing us off. I hope you are pleased with yourselves fore you have put another nail in the coffin of free radio and everytime you tune your radio in to an empty channel it will remind you of what terrible thing you have done. You all know who you are, hang your heads in shame forever.

So it's a big goodbye from TONY RANDALL, DAVE DOUBLEDDEX, DAVE MARTIN, BOB THE SNEAK and ALL THE CREW BEHIND THE SCENES ON THE MV MINCING SAILOR.

Goodbye.

Logs from the USA

15069.7 Alfa Lima Int., *2225-2230, Carrier popped on at 2225 and "Knock On Wood" by Amii Stewart began at 2227. Not a very strong signal but did improve later. Some quick QSB. (Valko 9 June)

9290.54 R. Nova Int., 0306-0320, Soft ballad, uncopiable M annrc in what sounded like a UK accent at 0309 and again at 0316. Just too weak to copy. IDed per Cowboy Charlie. I know I could've heard this easily from the State Game Lands remote QTH. (Valko 9 June)

NEWS:

Power AM has changed their e-address to poweram@mailus.nl

CWR closes down Internet activities and can be contacted only via Merseburg address from now. Also hotline number will be closed down soon.

We like to inform You all early enough in advance ... Q 103 is celebrating "midsummer" in Europe on various shortwave frequencies. If everything is going fine, we like to transmit from our old fishing vessel, but ... we' re of course not in international waters, may be just inside "national waters" from elsewhere in the Baltic Sea.
Here is the transmission shedule: -all times given in UTC-

Saturday, June 22nd 2002:

06.00 - 07.55 on 9292 khz

08.15 - 10.15 on 9292 khz

15.30 - 17.30 on 9292 khz [incl. is a px from R.Cochiguaz at 16.55 - 17.25]

18.00 - 19.00 on 5720 khz [test-transmission for 1st time of use]

Sunday, June 23rd 2002

05.00 - 07.00 on 11440 khz

07.15 - 09.15 on 11440 khz [1st ever broadcasted german programme !]

09.30 - 11.30 on 11440 khz [incl. is a px from R.Cochiguaz at 10.55 - 11.25]

all frequencies used in USB !

We also invite You to please check our homepage at <http://www.geocities.com/radioq103/>
e-mail: jazzlighthouse@gmx.li

Address: Q 103 - Östra Porten 29 - 442 54 Ytterby - Sweden

Let' s pray for better conditions on shortwave, hi !!

73' s / Juha Viren on behalf of the Q 103 crew

The 2nd Erkrath - Radioday on Sept.21.2002

That saturday we organise the second meeting for radio makers and listeners again in the rooms of the observatory .
The event is planned as an open meeting place , where all interested people are invited to.
Thematically we have the following points of interest :

RNI - the original and the RSLs

Radio Caroline and Radio Marabu

Why music-radio on shortwave ?

Community radio and special event broadcasting due the new regulations of the state of NRW .

We have invited some special guests , videos will be shown and there are the usual info - tables .

.....The event is scheduled from 12.00 noon to 20.00 hours in the rooms of the Observatorium of Sternwarte Neanderhöhe at D-40699 Erkrath

From Düsseldorf railway station one can get there with train S 8, direction Wuppertal / Hagen . You leave at stop Hochdahl-Millrath and walk the road in direction of the train to small way. on right hand named Hausmannsweg .After a few hundred meters you see the observatory .

By car you leave Autobahn A 46 at exit Haan West to Erkrath , in the town the way is marked „Observatorium“ .

You find a map under

<http://snh.rp-online.de> or

<http://www.radiocaroline.de> .

The entrance fee is 7.-EURO (3,50 EURO for Caroline Support Group members) . Preliminary registration or requests please to : Jan Sundermann , Millrather Weg 74 , D 40699 Erkrath , or call Freddy Schorsch at 0211 - 248813 (later than 20.00) .

NEWS:

Been sitting in a boat whole weekend, operating a radio, so no listening at all! Next weekend, Midsummer-celebration in some countries. Beer and schnaps! Good DX //the Editor

IRRS-Shortwave has changed their main frequencies, and reduced their operating schedule on Shortwave. For the current period we are now broadcasting (only) in the 22 m.b. as follows :

Monday through Friday: 0530-0630 UTC on 13840 kHz

Saturday & Sunday 08:00-12:00 UTC on 13,840 kHz

All transmissions on Shortwave may be heard in Europe, N Africa and the Middle East. We expect DX reception in USA, Australia and NZ. Transmissions are in parallel to our Internet audio streaming service at <http://mp3.nexus.org> (24 hrs).

We will appreciate receiving reports, please send reception reports to: e-mail: reports@nexus.org

or to: IRRS-Shortwave, PO Box 10980, I-20110 Milano, Italy,

We will gladly confirm reception on the new frequency by QSL. QSL and verifications requests may also be sent directly to the addresses that you hear on the air.

More information will be available at <http://www.nexus.org/NEXUS-IBA/Schedules>.

Thanks. 73, Ron / reports@nexus.org

Euroradio 2002 : Welcome on board the MV Mi Amigo.

The event :

- France Radio Club and Offshore Echo's annual event takes a look at the famous radio ship Mi Amigo, the radio stations and people that were involved with her.
- Euroradio 2002 takes place in Calais, France on Saturday 6th July 2002, at the Terminal meeting room (top floor of car ferry building).
- Starting at 2.00pm local time, Euroradio 2002 features a selection of offshore radio videos playing during the afternoon. We'll also be talking to our special guests.
- The Offshore Echo's Boutique will be open during the event and feature a wide range of offshore radio related merchandise.
- In the evening there is a special Euroradio dinner, including wine, in the private dining room of the Terminal restaurant.

Guest :

- Fred Bolland - one of the key figures behind the offshore radio scene since the 1970's, with Caroline, Delmare, Paradise, Monique, Laser, Nannell...
- Steve England - whose radio career, and experience with jingles, date back to Radio Atlantis and Caroline in the 1970's
- Howard Rose - better known as Crispian St John on board the Mi Amigo and Mebo II, and as, Jay Jackson on board the Ross Revenge
- Paul Rusling - Paul Alexander on Radio Caroline, and nowadays heading MusicMann, the future LW station on 279 kHz

Others guests to be announced.

Programme : (local time)

- 2.00pm : Welcome and opening
- 2.10pm : Stories about the Love Ship with John Platt - ships history, diving to the Mi Amigo's wreck and more
- 2.30pm : Before the MV Mi Amigo : Radio Nord on video.
- 3.30pm : Break - Offshore Echo's Boutique.
- 4.00pm : Mv Mi Amigo The Sixties (video + guests)
- 4.50pm : Mv Mi Amigo The Seventies (video + guests)
- 5.10pm : Break - Offshore Echo's Boutique.
- 5.30pm : Special Mi Amigo Guests
- 7.30pm : "LA" Aperitif and Mi Amigo dinner

Cost :

Euroradio 2002 costs £26 including dinner, or just £6 for the afternoon (without dinner).

Bookings, further information contact:

- Web : www.offshoreechos.com/euroradio_2002.htm

- E-mail : Euroradio2002@offshoreechos.com

- Post : Offshore Echo's, PO Box 1514, London W7 2LL, England

Full details of travel, hotels and Calais maps will be sent with bookings.

We can also arrange hotel rooms in Calais.

NEWS:

Watch out! There might be errors in the logs this week, as several contributors had problems with the date of listening! I have done what I could do to fix it but as my weekend was a bit disturbed, I have no logs to compare with. /Ed.

Radio Vrolijke Mijnerwerker announced an E-mail address of vrolijkemijnerwerker@hotmail.com

UK Radio International is now broadcasting all day every Saturday and Sunday on the internet via Live 365. Our web site address is <http://ukhothits.tripod.com>

Some translation for assistance: R. Vrolijke Mijnerwerker = R. Happy Miner

Q103, Fox 48 and R.City can be contacted via SRS, Ytterby

Starting Saturday 22nd of June, you'll be able to hear Radio 510 International programmes at the following times and frequency:
 Saturday 08.30 - 09.30 UTC (10.30-11.30 CET) on 13840 kHz
 Sunday 08.30 - 09.30 UTC (10.30-11.30 CET) on 13840 kHz - this is the repeat from Saturday!

Our signal can be heard all over Europe,N.Africa and the Middle East. Listeners in the USA and Canada might also be able to pick us up. For those who would like to listen to our live feed, please click here <http://mp3.nexus.org>
 More information can be had at our website <http://www.radio510.org> which is updated three times a week.We also have a "News Letter" which you can subscribe free of charge and is sent out every Friday via email with all the details of our upcoming programmes and more radio related stuff.Go to our "Mailing List" at our website for more information.

Some of the stations that you'll be able to here in the next coming months: Radio Casablanca, Radio Joystick, Radio IMR, Radio Waves, Radio 510 Int'l, Radio Sparks, East & West Radio, Radio Wonderful. All shows are in English and German

Calling all stations!

If you'd like to have your station played,we charge 35 Euro's for a one hour show plus a free repeat.More details can be found at our website or you can contact us at info@radio510.org Our schedule is full till the middle of August so please be quick if you're interested in getting your show aired. // DJ Stevie / Station Manager

NEWS:

Not much news to report this week. I have received some more translations of Dutch station-names, so here we go:

Dutch	English
Ome Gerrit	Uncle Gerrit (Gerrit is a (boy) name)
Zwarte Non	Black Non
Blauwe Vogel	Blue Bird
Rob 007	Rob is a dutch (boy) name

Have a nice summer! /Ed.

NEWS:

So, we are back again after some holliday. Just to remind you, SRSnews follows the weeks, so you have NOT missed issue 28 or 29!!

OFFSHORE ECHO'S MAGAZINE 127

The latest edition of the worlds only Offshore radio news and nostalgia magazine is now available. Offshore Echo's 127 features

- Pete Brady interviewed about his time on Big L
- Adrift at sea -continuing the story of the near loss of the Ross Revenge
- Government files - Monitoring Mi Amigo, more secrets revealed of how the authorities kept up surveillance on the activities of the radio ship
- Euroradio 2002 - an overview and photo's of guests Paul Rusling, Steve England and Fred Bolland
- Memories - Christmas '73 with the pirates; Rosko recalls
- And see how you can fly Mi Amigo
- Offshore Echo's costs £4.50 per issue, or annual subscription (5 issues) for £20.00 within European community.

For more details contact:

Post Offshore Echo's, PO Box 1514, London W7 2LL, England

NEWS:

The temperature says +30 degrees Celcius inside and outside it is +28... just brooken up with my girlfriend and will start my next 3 weeks of holliday next Monday....so we have to see what happens next..

We are looking for any shortwave stations that can help broadcast our tapes for two days "Saturday and Sunday",we are Radio 222,and had a station on air from around late 1969 to mid 1975,we also have a website at <http://radio.222.tripod.com>. Our email contact address is radio222@easy.com

From Cachito, the Radio Cochiquaz op, we got this:

There is a rumor that I overhear: Unfortunately, there is a possibility that RPI won't be in the South-American pirate activity anymore. It's a pity, because they be a pioneer in free radio here in the South-American scene. *Ed's remark: That only means that Mr RPI will start up again somewhere on the earth were the pirate-activity is too low at the moment, hi..*

From midnight on Monday 22nd July 2002 Radio Caroline will also transmit using the WorldSpace AfriStar satellite. This will enable listeners from The Azores in the west to India in the east, and Norway in the north to South Africa in the south to receive digital quality audio using a small, portable receiver! This is a major step forwards for us, and will once more make our programmes available in the office and on the beach. Initially the programmes will be 'free to air', but WorldSpace reserve the right to encrypt them in the future and to charge a small subscription fee. But we're worth it! WorldSpace receivers are available in many High Street stores, and www.worldspace.com provides lists of suppliers in different countries should they be needed.

Does anybody have the E-Mail-address of the new Dutch station Radio Galaxy? Is this a new station or just a new name? To me it seems to be a new name.

Finally, we got this web-site address: <http://www.radionorge.nu>

I do NOT know what it is! The site says that they are broadcasting via internet but I had no signal. Anyway...Norway from UK... (Norge = Norway) also was there a mention of Radio Barneacle (or equal, the same as those white things that sticks to the bottom of your boats).

=====

NEWS:

The new station RADIO ROCK was formed by some previous members of Focus 7540. Therefore the old Focus phone number was announced. They can also be reached via their E-mail address of radiorocksw@msn.com. A verification of reception reports has been promised.

Ozone will be using 7445v from now on 06.30-10.45 UTC , we had found that there is too much crowding on and around 6280-6295; we will still try and use 6280 from 1800 z UTC of a evening so Dutch stations please take note of this, we will be on this channel, if you want to hetrodyne with us, that will be your problem, And for the 20,00000000 time Jolly Roger Radio should use 6260 as on 6255 there is the pulser and on 6265 there is BRi so a space in between the two.

73's Gary Stevans.

You can also find RNI jingels on the Pacmansite.....

NEWS:

FFPI from Costa Rica has a good and stable signal on 7445 USB and can be heard all morning. Stay away from that frequency to avoid QRM to your signal.

Radio Kreatif, P.O. Box 134 , NL-3780 Voordhuizen.

Skeleton gave the following e-mail: radioskeleton@globo.com

Some more Dutch translations:

"Jan Amateur" can be translated to "John Amateur"

"Zwerver" is "Wanderer"

"Bartje" is a name of a famoeus boy in Holland

Raid during the FR Camp in Gronau 2002

This year saw another RCNW FR camp near the Lake Driland, where the Netherlands as well as 2 German 'Countries' come together.

The camp was full with guests from Germany and the Netherlands. But on Saturday evening (Sep 7, 2002) at 20:35 local 'they' did a raid against the Camp radio station named Radio Dynamix. 'They' were Mr N.Neitzel by the German 'Regulierungsbehörde für Post- und Telekommunikationswesen' as well as a helper of him. They were protected by 4 local policemen. The pirates were quite upset about the raid and did pictures. The officials did pictures (of the tx) themself.

The raid itself occurred very fast. The 2 men went straight into the room with the transmitters and the policemen protected it against all those who were outside.

Mr. Neitzel showed his 'passport' and thus the organizer had to let him in. The data of the camp organizer (the OP of Radio Driland) and the man who was behind the mike at the moment the men stepped in the room have been taken by the officials. They took away the transmitter and several equipment, the policemen tried to calm down the situation.

They even did so after the 2 officials left the camp with the confiscated equipment. One Dutch visitor has been slightly injured at his eyes (with spray) in the course of the raid, probably during a 'bodycheck' in order to get back the confiscated transmitter.

It is not known who gave the word to Mr. Neitzel. Rather than 'causing interference' as the cause of the raid one can assume that he already awaited the camp and knew that something was going to happen there. The 4 local policemen were not involved in the case itself, they did their job after they have been officially asked for help by the 'Regulierungsbehörde'.

Someone will most probably get an official fine from the officials. But since not all questions of ownership have been answered we'll have to wait for more news from the officials. From the statements of other raided German pirates we know that it can take several months and the fine could be as high as 4000 Euro in a 'bad case'. Let's hope this won't be the case and talks with the lawyers and the authority can solve the case.

The raided Radio Dynamix from the Camp in Gronau can be reached via the dropbox of SRS Germany in Merseburg.

Pirate stations contest

To celebrate the 10th anniversary of Pirate News, A.I.R. -Associazione Italiana Radioascolto announces a contest concerning exclusively pirate stations, open to all listeners (AIR members or not) from any country. Participants will have to listen to as many pirate stations as possible according to the following simple rules.

- * Listening period: from October 31st, 1200 UTC, to November 3rd, 2002, 2400 UTC.
- * Any pirate station (with its own transmitter or via pirate relay) can be heard, for at least 15 (fifteen) minutes, on any frequency (medium or shortwaves) and in any language. At least 5 (five) stations must be logged and each station only once.
- * The loggings must include all the details required for a correct identification: frequency, date, time (UTC), name of the station, language, programme details suitable to a good evaluation and SINPO code.
- * The log must also show the receivers, antennas and any other additional equipment used.
- * Some monitoring stations will be active during the listening period.
- * The entry fee is 2 IRCs or 3.00 USD or 3,00 Euro.
- * Each participant will receive a diploma.
- * Books and other items concerning pirate stations and radio listening will be drawn among all participants. An up-to-date list will be published in AIR web pages.
- * The logs must be mailed to the following address, postmarked not later than November 30th, 2002:
PECOLATTO Bruno, Pirate News, Casella Postale 1, I-10080 VALPRATO SOANA (TO)

NEWS:

No actual news this week. The higher frequencies seems to work short distance at the moment.

R.Meteoor announced P.O.Box 71, NL-7720AB Dalfsen, the Netherlands

SRSnews in the future?

Well, I have decided to stop the press. December 30th will be the last issue of SRSnews! After almost 8 years and approx. 800 pages of logs, it is time for some rest! This is what will happen, as it looks today:

1. SRSnews will close down
2. SRS Maildrop will remain
3. SRS.pp.se will remain and will be more interactive.
4. Well, we have to wait and see...

If anyone wants to continue with editing and publishing logs, please let me know.

NEWS:

RADIO PARADISE made a return after a long time. At the moment the station can only be contacted by telephone. The old E-mail address of radioparadise@hotmail.com is no longer valid. A new one should be in operation soon.

The new station on 15810 kHz can be contacted via radiospaceshuttle@hotmail.com

The latest issue of the worlds only magazine devoted to offshore radio news and nostalgia is out now.

OEM 128 features

- New - full colour front and back covers - this issue MV Mi Amigo
- Euroradio 2002 - Paul Rusling and Steve England interviewed. Paul and Steve talk about their time with Caroline and their careers in radio.
- Walter Simmons - Sun was shining over the Northsea. Walter's continuing diary of life on the Ross Revenge in the mid 80's
- Tribute and interviews. The late Howard Rose, probably better known as Crispian St John or Jay Jackson
- The Sylvian Tack story - the man behind Radio Mi Amigo and Suzy Waffles
- Marc van de Mosselaer - REM island engineer tells his story
- Adrift at Sea - Paul Graham continues the tale of how the Ross Revenge was nearly lost

Offshore Echo's 128 is available now for £5.00, from Offshore Echo's, PO Box 1514, London W7 2LL, England
Email: oem@offshoreechos.com, Web www.offshoreechos.com

NEWS:

Radio Paradise can be contacted at paradiseinternational@hotmail.com

Most of the SW stations do have an E-Mail address. Many also use a postal address (snailmail) but not all stations. If you are looking for P.O.Box and a reliable and fast service, we could help. FRSH is offering its P.O.Box 2702 in 6049 ZG Herten to any station which is intererested. Your mail could be forwarded each week or if you want on a fortnightly or monthly basis. We are flexible and we'd like to meet your wishes. For a small fee at an annual basis, you could have your own P.O.Box. If you as a station OP are seriously interested, than contact us via E-Mail or snailmail.

NEWS:

A new German station called Radio THUNDERBIRD prepares for its start. No times and frequencies known yet, but it will use the SRS Germany address in Merseburg. General advice for that address :
Please always write 'SRS Deutschland' as the first line when sending reports to the Box 1136 in Merseburg.

Radio Mister X, P.O. Box 41, NL-8080 AA Elburg the Netherlands.

R Nordmende, P.O.Box 2702, NL-6049 ZG Herten, the Netherlands and radionordmende@hotmail.com

West Coast R, westcoastam@hotmail.com

NEWS:

First of all, from me and Martin; Have a Merry FR Christmas!

Some more information on what will happen after the close down....

The EDITED version of SRSnews will close down. Two new alternatives will appear. Full information will be sent out with the next issue of SRSnews (#53).

RADIO SEAPOODLE WEB SITE LAUNCHED

Radio Seapoodle has launched its web site onto the net. The site deals with all sorts of radio matters from off-shore broadcasters in the 60s,70s and 80s through to stations not yet on the air. We carry the best of radio news provided by UK Radio.com as well as our own Press Release section

We answer the question 'Why did British Commercial Radio start off-shore?'

Cornwall is to get a new station, we tell you about who we support and why

Take a look at Falkland Islands Radio

Read the Radio Caroline story

There is more, including a pages on Big' L' DJ Mark Roman and the ever popular Emperor Rosko

If all that is not enough, the Radio Seapoodle audio service will launch in the new year. We are ready for your visit..... Go to www.seapoodle.net

Hello all the listeners over the world.

Radio East Coast Holland and the Voice of the Netherlands will do it again on short wave with the New years eve broadcasting 2002. We will start around 09.00 utc time in the 41 m.band on 7480 kHz,this year not parallel on the 48 m. Hopely will you enjoy the live programming with a lot of pirate stations in the studio.

Homepage is <http://www.geocities.com/eastcoastholland>

Radio Piepzender announced a new website, www.piepzender.nl and the e-mail piepzender@planet.nl

Radio Eldorado gave eldoradoradio@hotmail.com as e-mail.

Radio 815 gave radio815@hotmail.com as e-mail.

If you want to hear almost perfect sound, tune into **In The Mix Radio** on <http://www.live365.com/play/143526>
Special X-mas px announced.

NEWS:

Radio Caroline changed its email address earlier this year, and it is now piratecaroline@aol.com.

The following stations are using the Herten maildrop: FRSH, Borderhunter (also using Ytterby), Brigitte, ROZ, Victoria, RTN 2000 & Radio Spaceshttle Int.

Radio Black Arrow gave RadioBlackArrow@hotmail.com as e-mail.

Delta Lima gave sylke.w@t-online.de as e-mail.

West Coast Radio gave westcoastam@hotmail.com as e-mail.

The 2002 Flash-Back Vote

After receiving all those "votes" and been reading all the "why", I can not give any station credit for being the winner. All stations are winners.

Here are some stations and comments, without any ranking order:

Free Radio Service Holland

*FRSH was very sympatic when I wrote them with their DX news.

*the number one.

A.L International

* Always strong with good music

* Alfred is a goood guy!

* Very nice music and commentaries

* High activity and promotes free radio broadcasting

* Because they always seem to put a signal into the Pacific with low power

* If you asked for the best in signal strength over the past few years ALI has it. If you ask for help with an address etc. Alfred has it. He is the best on the bands these days.

Radio Korak

* A splendid picture of the station

* Very nice music and commentaries

SWRS

* Pity it is not active anymore. Was one of the leaders one in operating on serveral freqs high and low.

* High activity and promotes free radio broadcasting

Free Radio London

* Well done programs

* There consistancy for the last 34 years

Weekend Music Radio

*The programmes are great fun.

* Jack Russell on WMR always has some interesting radio chat and anecdotes to relate and you can understand what he's saying (without subtitles, unlike some Dutchies;-)) and actually broadcasts from Scotland, not via some relay.

* Gave me a new country verified on SW. Besides that he gave me entertainment, a prompt verification with shack photos and a personal letter saying I was the first to report from the USA.

Ozone International

* I love Irish pirates and he is one of the originals.

* Because they are so helpfull.

Radio Mariquita

* Because I remember one Christmas (1995??)relaxing with my wife and a bottle of vino and enjoying the music wafting across the ether from Italia.

Radio Titanic International

* Nice sound effects

* Very nice music and commentaries

Radio Stella International

* Nice talk and accent of the DJ!

Heavy Dude Radio

* My fav Swedish pirate! - Sent me free T-Short!

Radio Benelux

* for doing something else !

Radio Bremen

* never mind a lousy modulation

Radio Firelight

* young and bright and truly a one day fly

Subterranean sounds

* Because Mr Midnight is so cool.

* The underground station! One of the very few examples of stations not trying to imitate commercial radio.

* Variety of music from weird indie stuff to Abba! Lots of talk about many diverse and irrelevant topics.

Angel Interntional

* Because of the dj Hippychick.

Swinging Radio England

* Because of the amazing program content its very funny

Crazy Wave Radio

* The guy who runs it is a really nice chap and he knows the kaiser

* Open your mouth wide and say something. Hardly to be found in free radio.

Radio Waves International

* Very nice music and commentaries

Radio Likedeeler

* Friendly, intelligent chat. Chaos yet with some sense.

Radio Galaxy (UK)

* Radio Galaxy have these amazing live broadcasts from a hilltop "somewhere in England" and actually sound like they're having a party and enjoying what they're doing - and this enthusiasm you can feel coming over the airwaves.

Laser Hot Hits

* While Laser Hot Hits have been on the air for so long and on so many frequencies with professionally sounding programmes, you almost forget they're a pirate operation - they're just like part of the establishment!

Dr. Tim

* High activity and promotes free radio broadcasting

Sensation AM

* Likewise puts a reasonable signal into the Pacific with low power

KIPM

* the most unusual station using USB and playing many unusual spaced out skits

* KIPM is the best!

Radio Armadillo

* Recordings of old cult local radio comedies like Frank Sidebottom and The Grumbleweeds

Live Wire Radio

* Listeners' letters, high power tests, classic rock and metal music.

* my first transatlantic Free Radio reception. A nice QSL card and sticker was received shortly after (about two weeks) my report was sent.

Radio Borderhunter

* great signals to the USA.

Stations mentioned without comments:

Farmers Radio

WRI

European Music Radio

Radio 510 Int.

R. Marabu.

What happens now?

There will be two "new" areas open on the internet.

First we open SRSnews Web, by the end of week 1 2003, the SRSnews-link on the startpage will re-direct to this page. But you can access it right now via <http://www.srs.pp.se/cgi-bin/teemz/teemz.cgi>

It's an "old" fashion, but modern, bulletin board. If more topics are wanted, just let me know!!

Secondly, an "always-functioning" mail-list starts right now. You, as a subscriber to SRSnews will NOT be automatically joined to the list. I know that there are a lot of people that do not like their e-mail addresses to be hi-jacked for mailing-lists. So to subscribe to **[SRSnews_web]**, just send an empty message with your correct e-mail to **srsnews_web-subscribe@yahoogroups.com**

If you already have an Yahoo-account, just join the srsnews_web list.

The list settings are as follows:

* Not listed in Yahoo directory

* Restricted membership

* Unmoderated

* All members may post

* Archives for members only

* Email attachments are not permitted

When you have joined the list, send e-mail to **srsnews_web@yahoogroups.com**

I hope that this will help a bit. If I find the activity to be high enough, more stuff will be presented on the home-page to help DX-ers and operators to communicate fast and easy.

Final words

It has been a joy working with you all for those 8 years!

There are a few I want to thank "in public", and that is:

Stefan Printz, Bjoern Quaeck and Martin Schoech. Thanks for all your help!

SRSnews was made by YOU, so without YOU, there would never been any SRSnews.

So a BIG thanks to You as well!

Eight years goes fast. And specially when you have a scheduled day every week!

But I don't regret one minute that I started SRSnews in 94. It has just been fun, fun and more fun! And only a very few "complaints". One DX-er, one station and one "We-love-ourselves"-magazine. Not too bad. But I did not understood why that DX-er was angry at me and the station was generating the problem himself just to have something to be pissed at. The magazine? <laugh>

There are many other good lists on the net, so if you prefer an edited version, please look for them. The reason for SRSnews to come alive was to merge all those personal lists into one list. Just to make it easier for the readers. I know very well that the [srsnews_web] and SRSnews Web is not in that line.

The home-page will be re-arranged soon.

I wish You all a good end of 2002 and a good start of the year 2003!

This is Jonny, signing off from SRSnews.....

P.S.

ALL other SRS-activities will continue as before!!!

----- end of SRSnews -----
